M2:Practical – 1

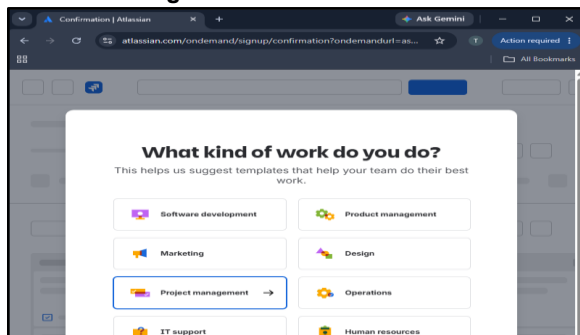

Roll No.: T002	Name: Asmitha Mohan Raj
Class: TYIT	Batch: 1
Date of Assignment: 29/08/2026	Date/Time of Submission: 29/08/2026

A.Create a Jira Cloud account and explore the dashboard.

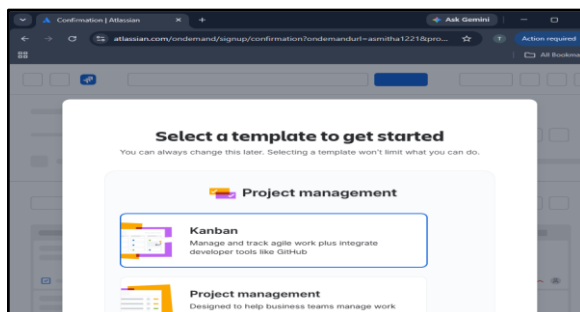

- Complete the account creation process by following the instructions displayed on the screen.

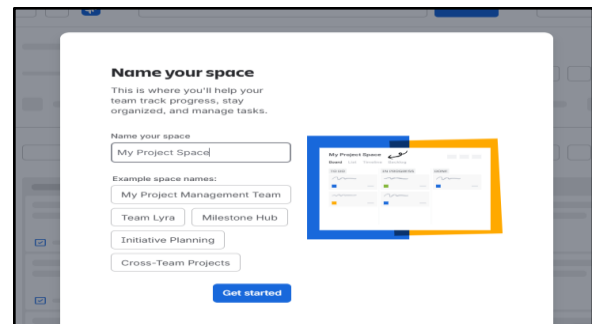

- Select the type of work you want to manage. For this practical, select Project management.

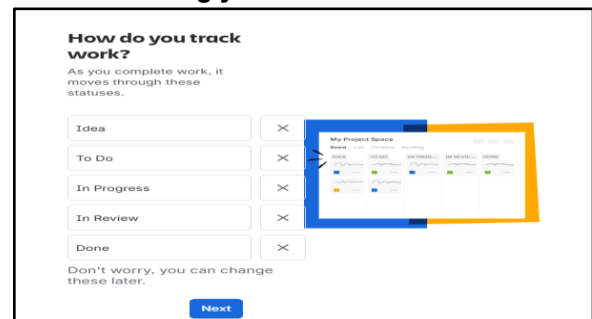

- From the available project-management templates, select the required template that is Kanban and click Next.

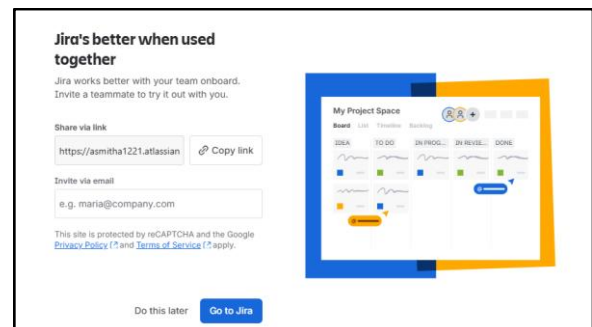

- Enter a suitable name for your space/project in the Name your space field.

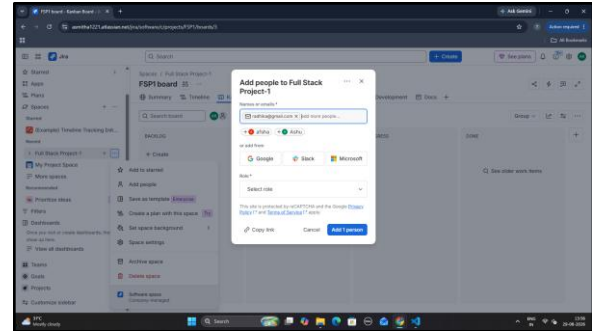

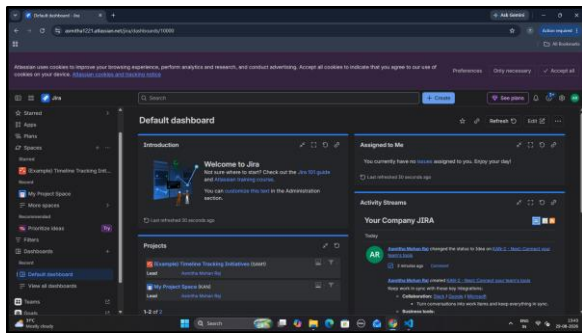

- Select the appropriate method for tracking your work and click Next.

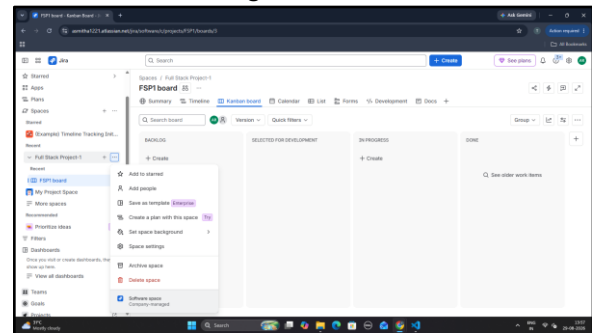

- After this select the type of work – click next.
- Click on Go to Jira.

- After completing the setup, the Jira Dashboard will appear. The dashboard provides access to your projects and work.

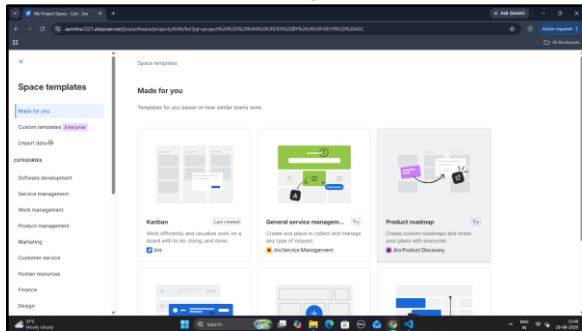

- After completing the setup, the Kanban Board will appear. The board can be used to create and track tasks through different stages.

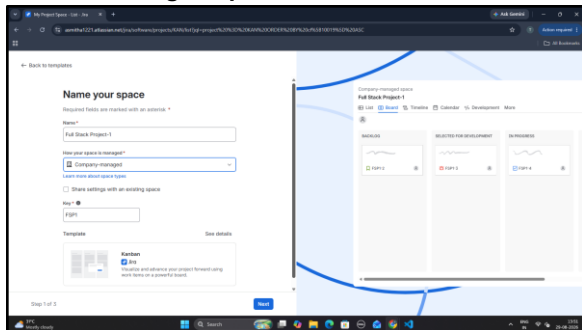

B. Create a Company-managed Scrum/Kanban Project.

- From the Jira navigation menu, click Spaces (+) to create or access a space.
- Select the Kanban template to create a Kanban-based project.

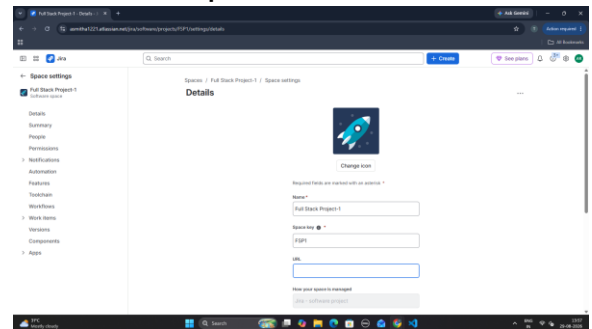

- Enter the required Space Name and provide the necessary details such as, select Company-managed in space managed option and then click next

C. Configure project details:

- Open the created Jira space/project from the navigation menu.
- Click Space settings to access and manage the configuration options of the Jira space.

- Enter the email addresses of the team members you want to add to the space. If you do not want to add members at this stage, select 'I'll do this later'.
