M2:Practical – VIII

Roll No.: T002	Name: Asmitha Mohan Raj
Class: TYIT	Batch: 1
Date of Assignment: 23/09/2026	Date/Time of Submission: 23/09/2026

Practical 8: JQL & Filters

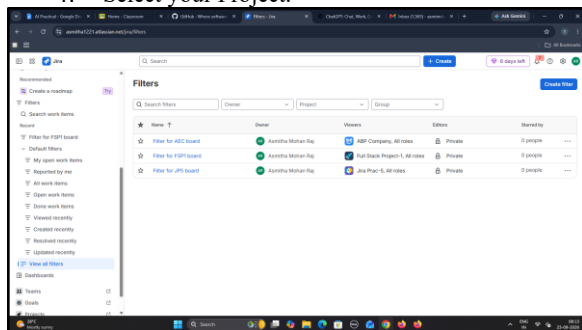

A. Write basic JQL queries (Status, Assignee, Priority).

Theory:

JQL (Jira Query Language) is used to search and filter work items based on fields like **Status**, **Assignee** and **Priority**. Filters can be saved and reused.

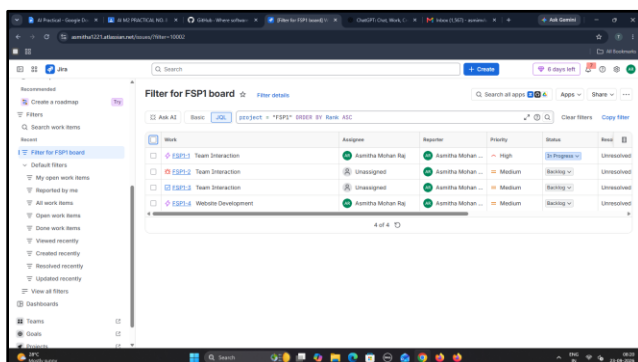

Steps:

1. Open Jira.
2. Go to Filters from the left pane.
3. Click View all filters.
4. Select your Project.

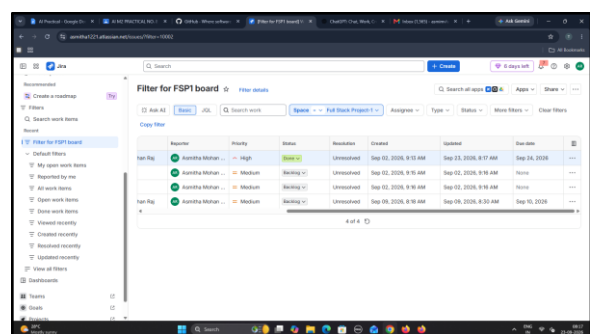

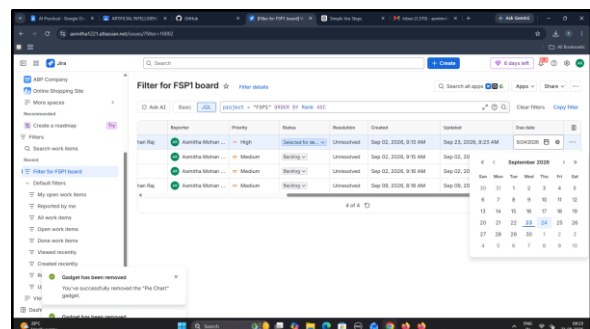

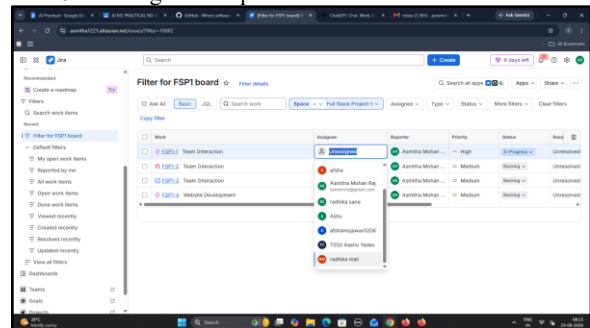

5. Write the required JQL queries using fields such as Status, Assignee and Priority.

B. Create and save filters.

6. Assign the required values to the filters.

7. The assigned values get automatically save
